

Q2 2026 • PAC Update

Our Voice in Washington

Building Relationships. Driving Impact. Expanding Our Influence.

T1PAC continues to support policymakers shaping defense innovation, artificial intelligence, national security, and federal funding priorities that directly impact TurbineOne's mission and customers.

Customer procurement

Defense innovation

Artificial Intelligence

Technology modernization

National security

The second quarter of 2026 marked another important period of growth for T1PAC and our Government Relations efforts.

As Congress advanced work on FY27 appropriations legislation and national security priorities, T1PAC continued building relationships with key policymakers who oversee defense, intelligence, and technology modernization programs. These efforts help ensure lawmakers understand the operational impact of emerging technologies and the role innovative companies like TurbineOne play in supporting national security missions.

A major milestone this quarter was the opening of T1 Edgeworks, TurbineOne's new headquarters and immersive research, development, and demonstration facility in Chantilly, Virginia. Congressman Suhas Subramanyam joined company leadership, employees, and distinguished guests to celebrate the opening, which represents a significant investment in the Commonwealth and will support continued growth, innovation, and job creation. The facility provides a hands-on environment where government, defense, and intelligence partners can evaluate mission-ready AI technologies in real-world operational scenarios.

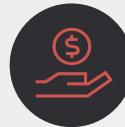

T1PAC remains:

- ✓ 100% voluntary
- ✓ Nonpartisan
- ✓ Employee-funded
- ✓ Fully transparent and FEC-regulated

Thank you to everyone who supports and engages with T1PAC. Every contribution strengthens our collective voice.

T1PAC Snapshot: November 1 – June 30, 2026

Since launching in November 2025, T1PAC has continued to grow in both participation and impact. Increased membership strengthens our ability to strategically support leaders who shape defense, national security, and technology policy.

Key Disbursements & Engagement

Strategic Support for Leaders in Defense, Intelligence & Appropriations

T1PAC continues to support Members of Congress who play key roles in shaping defense funding, artificial intelligence policy, military modernization, and national security priorities.

Supported Leaders this Quarter Include:

Sen. Susan Collins, Chairman,
Senate Appropriations Committee

Rep. Ronny Jackson, House Armed
Services Committee

FEATURED ENGAGEMENTS

Opening of T1 Edgeworks • Chantilly, VA

Congressman Suhas Subramanyam (VA-10) joined TurbineOne leadership and employees for the opening of T1 Edgeworks in Chantilly, Virginia. The event provided an opportunity to showcase TurbineOne’s growing presence within the national security ecosystem and highlighted the company’s commitment to delivering mission-ready AI solutions for defense and intelligence customers.

The opening of T1 Edgeworks also generated recognition from leaders across the Commonwealth. Virginia **Governor Abigail Spanberger** welcomed TurbineOne’s expansion, citing Virginia’s strategic location, world-class talent, and strong national security ecosystem as key advantages for companies advancing critical defense technologies. During the opening event, a **representative from Senator Mark Warner’s office** presented TurbineOne leadership with a congratulatory letter recognizing the company’s growth in the Commonwealth and its contributions to defense innovation and national security. Together, these recognitions underscore TurbineOne’s growing role within Virginia’s defense and technology community.

Expanded Engagements

T1PAC also expanded its engagement with **Congressman Ronny Jackson (TX-13)** during the quarter. A member of the TurbineOne team attended an event with Congressman Jackson during a conference in Virginia Beach, providing an opportunity to discuss military readiness, defense modernization, and emerging technology priorities.

“With an unbeatable strategic location, a stable business environment, and access to world-class talent, Virginia is the natural destination for any company looking to expand and take their operations to the next level.”

— **GOVERNOR ABIGAIL SPANBERGER**

“I recognize the vital role that companies like yours play in our economy. Businesses lay the foundation for job growth in our communities and spur innovation. The decision to relocate TurbineOne’s headquarters and demonstration facility to Northern Virginia reaffirms your commitment to collaborating with the US government. Thank you for your service.”

— **SENATOR MARK WARNER**

Looking Ahead

In the coming months, T1PAC will continue building relationships with policymakers who shape defense and national security policy while creating new opportunities for employee engagement.

UPCOMING PRIORITIES

AI Summit with Chairman Ken Calvert in Bay Area

Maine Facility Ribbon Cutting with Sen. Susan Collins

T1PAC Event at Fall Off-Site Meeting

Continuing strategic engagement with leaders on defense, intelligence, and appropriations issues

Expanding participation across eligible employees

Q3 T1PAC Quarterly Update

Our goal remains simple: ensure TurbineOne's mission is understood and supported in Washington.

Government Relations Update

Advocacy in Action: Q2 Engagement Highlights

In addition to PAC activity, we continued engaging Members of Congress and congressional staff on priorities important to TurbineOne's mission, including:

- ✓ FY27 Defense Appropriations
- ✓ Artificial Intelligence and Autonomy Initiatives
- ✓ National Security Modernization Priorities
- ✓ Emerging Technology Integration

Through meetings with appropriators, Armed Services Committee members, and other key stakeholders, we continue to educate policymakers on the operational impact of TurbineOne technology and the importance of sustained investment in defense innovation.

T1PAC complements these efforts by strengthening relationships with policymakers who influence national security and defense technology priorities.
